

MISAEAL R. PAYAN

HYPERWUMPUS | CONTENT CREATOR & CREATIVE PROBLEM SOLVER

Rexburg, ID | (682) 564-7906 | misaelpayan2@gmail.com

github.com/m1543l-byui | youtube.com/@HyperWumpus | English & Spanish

Bilingual creator and technology professional combining storytelling, gaming, original concepts, and practical problem-solving. Builds ideas into tangible starting points for people and small businesses. Available for creative brainstorming, video/content projects, freelance opportunities, and remote work.

CREATIVE WORK & PROJECTS

HyperWumpus | Independent Creator & Project Designer

- Create gaming content and streams while developing tutorials, video concepts, and a community identity across YouTube, Twitch, and Instagram.
- Develop a Genji gameplay guide, including the teaching structure, filming approach, chapter transitions, and content ideas that connect gameplay with learning.
- Direct AI-assisted pixel-avatar and Cyber Wumpus character development, expressive sprite sets, and stream branding for The Wumpus Hole Discord community.

HyperWumpus Creator OS | Personal Workflow Prototype

- Designed a system around creator bottlenecks: scattered ideas, analytics research, unfinished footage, and the path from concept to publication.
- Developed an AI-assisted Python/Streamlit prototype with an idea inbox, priority queue, content planner, production stages, analytics, and an editing-studio workflow.

Local Business Concepts | Websites & Opportunity Discovery

- **Monica's Sweet Makings:** Created a website concept to help a friend present her treats and creative services with a clear path to an inquiry. Ongoing work in progress.
- **Kainoa's & Rexburg Auto:** Developed independent website concepts for potential local-business pitches. This work also informed the Scouter app concept for exploring business opportunities.

PROFESSIONAL FOUNDATION

IT Intern | Sugar-Salem School District | Jul 2026 - Present

- Contribute to Sugar Salem Insight, learning APIs, Python data transformation, and SQLite through a practical reporting-data project. Apply those lessons to independent app ideas.

IT Help Desk Technician, Tier 1.5-2 | Melaleuca, Inc. | Mar 2021 - Aug 2025

- Supported global enterprise users, coordinated incidents, and translated technical issues into clear updates. Collaborated with engineering teams and created documentation and training.
- Automated recurring repairs across 100+ workstations, reducing repeat support calls by 25%.

CAPABILITIES & COLLABORATION

Creative brainstorming and naming | Content ideation and outlines | Video editing and videography projects | Gaming tutorials and VOD review | Visual concept direction | Website concepts | AI-assisted prototyping | English/Spanish communication

EDUCATION & ADDITIONAL BACKGROUND

B.S. Software Engineering | BYU-Idaho | Expected Jul 2027

Programming Certificate and Associate of Science completed.

Former personal trainer; Bucked Up ambassador. Future goal: regain NASM certification.
