

MISAEAL R. PAYAN

TECHNICAL SUPPORT | CREATIVE PROBLEM SOLVING | SOFTWARE PROJECTS

Rexburg, ID | (682) 564-7906 | misaelpayan2@gmail.com

github.com/m1543l-byui | youtube.com/@HyperWumpus | English & Spanish

Bilingual technical support professional with 4+ years of enterprise experience, a people-first approach, and hands-on Python/API project work. Combines incident coordination, automation, and clear communication with initiative in designing useful tools and website concepts. Seeking remote employment and freelance opportunities.

EXPERIENCE

IT Intern | Sugar-Salem School District | Jul 2026 - Present

Sugar-Salem High School IT Department | Idaho

- Contribute to Sugar Salem Insight, a Python ETL project extracting REST API data, transforming nested JSON, and loading validated records into SQLite for future reporting.
- Helped diagnose a data-conversion failure across pipeline stages, revise the data flow, and verify end-to-end execution; document architecture and explore additional endpoints.

IT Help Desk Technician, Tier 1.5-2 | Melaleuca, Inc. | Mar 2021 - Aug 2025

- Coordinated critical incidents for users in the U.S., Mexico, China, and Australia through VictorOps and Microsoft Teams; partnered with Engineering, DevOps, BI, and DBA teams on escalations.
- Supported server/application triage, warehouse devices, data recovery, and JD Edwards; served as one of two primary evening technicians for the Rexburg Call Center.
- Built a priority matrix for 50+ daily tickets, improving high-impact incident response time by 15%; automated Compass repairs across 100+ workstations, reducing repeat calls by 25%.
- Authored knowledge-base documentation, supported onboarding for 20+ employees monthly, and trained 8+ supervisors in password-reset procedures.

SELECTED INDEPENDENT PROJECTS

- **HyperWumpus Creator OS:** Designed an AI-assisted, local-first Python/Streamlit prototype connecting analytics research, idea capture, content planning, and production workflows. Includes SQLite storage and an optional read-only YouTube API connector.
- **Business website concepts:** Created independent portfolio concepts for Rexburg Auto, Kainoa's, and Monica's Sweet Makings, exploring how services and clear inquiry paths can support local businesses. Kainoa's remains an uncommissioned concept awaiting a pitch.

SKILLS

Support: Windows, Active Directory, Exchange, VPN, provisioning, IGEL UMS, JD Edwards, endpoint troubleshooting.

Operations: Incident coordination, escalation management, documentation, training, stakeholder communication.

Tools: VictorOps, Teams, Cisco CUCM/UCCE, MFA, DUO, Microsoft Authenticator, batch scripting.

Developing: Python, REST APIs, JSON, ETL, Pandas, SQLite, Streamlit, debugging, and AI-assisted prototyping.

EDUCATION

B.S. Software Engineering | Brigham Young University-Idaho | Expected Jul 2027

Programming Certificate completed | Associate of Science completed | 100+ university credits completed.
